

McAfee Mobile Security

The ultimate protection for your mobile life

The ultimate protection for your mobile world.

Protect from Prying Eyes and Risky Apps

Selectively share your apps

Easily set up different profiles to share your stuff with family and friends. Or, just, lock up any app with a 6-digit PIN.

Know what your apps are up to

Mobile apps are great. But they could also gather a great deal of information—personal things you may not want to share. Our proprietary technology taps into McAfee Global Threat Intelligence network and generates a customized report detailing what information your apps are collecting, empowering you to remove the offending apps.

Block obnoxious spam

It's annoying, it infringes on your privacy, and now it's easy to eliminate. Our advanced filters stop spammers, incorrect numbers, and unwanted texts.

Get the Most out of your Device

Want to stay safe and productive with minimum effort? Home Screen Widget has got your back. It always keeps you up to date about your security status and lets you fix an issue with just one tap.

When it comes to battery life, every minute counts. Our intelligent Battery Optimizer feature provides accurate estimates of remaining battery life in minutes to help your device last longer.

Improve memory usage with Memory Cleanup. We'll let you know which apps are running in the background and using up your precious RAM.

Track It, Lock It, and Wipe It

Remote Lock and Wipe

Life happens. Things go missing. Prevent misuse of your personal data by remotely locking your device. If you think your device is gone for good, use the online portal's Find Device Wizard to auto trigger a series of helpful commands.

Backup and restore your stuff

We've made it easy to preserve irreplaceable personal information on demand, on a schedule, or before you wipe your missing mobile device. Once your valuables are backed up, it's simple to restore them to a new device.

Locate, track and send an alarm

Sometimes you just need a little help finding things. Locate your phone or tablet on a map using the remote management portal. Go ahead and remotely lock it until you can retrieve it. Or, activate an alarm to make it "scream."

S.O.S

Automatically saves the last location of your device before it runs out of battery.

To catch a thief

McAfee Mobile Security's CaptureCam feature silently takes a snapshot of the person holding your lost device and emails the photo to you along with the device location.

Stamp out Malware

Guard against viruses and spyware

It used to be that mobile devices were somewhat insulated from the bad guys. That's no longer the case. McAfee Active Protection™ technology scans deep into your apps, files, SD cards, and files to root out malware. And while the protection is heavy, it's amazingly light on resources and battery life.

Stay Safe from Unsecured Wi-Fi and Malicious Websites

Search and shop securely

As you navigate the web, McAfee Mobile Security blocks malicious websites. We even safeguard you against potential phishing sites, browser exploits, and malicious quick response (QR) codes.

Stay safe while being social

Most of today's threats are making their way through email, texts, and social networks sites. We block potentially risky links no matter how they present themselves.

Connect with confidence to Wi-Fi networks

McAfee Mobile Security will warn you if you're connected to a potentially unsafe network and will automatically disconnect and notify you if it has detected Address Resolution Protocol (ARP) spoofing that allows intruders to listen in on your web traffic.

Data Sheet

Specifications

Supported device operating systems

- Google Android 2.3 or higher, including Android 5.x (L)
- Apple iOS 6.0 or higher
- Tizen 2.2.1

Online management portal browser support

- Internet Explorer 9.0 or higher
- Firefox 30 or higher
- Safari 6.1 or higher

Supported Languages

- Android: 29
- iOS: 28
- Tizen: 16

Paid Subscription

(\$29.99/year) includes:

- Media upload
- Tech support
- Ad-free environment

Support

24/7 free technical support via email, phone, and chat

30-Day Money-Back Guarantee

If you are not 100 percent satisfied, you will receive a full refund. *Note: Available for annual subscriptions only.*

Local Vault	Store valuable photos/videos on local vault that is protected by user's 6-digit MMS PIN		•	
Anti-Theft				
Data Backup	Remote backup from website	•	•	
	Contacts	•	•	
	SMS	•*		
	Call logs	•*		
	Photos/videos	•**		
Data Restore	Contacts	•	•	
	SMS	•*		
Device Lock and Alarm	Remote lock from website	•		
	Lock with or without alarm	•		
	Autolock on SIM change	•*		
	Secure lock via SMS	•*		
	Secure unlock via SMS	•*		
	Remote alarm from website	•		
	Alarm	•		
	Secure alarm via SMS	•*		
Locate and Track	Remote locate from website	•	•	
	Locate device on map	•	•	
	Remote real-time location tracking from website—continuously track device location on map	•		
	SOS—automatically save last known device location on low battery	•	•	
	Secure locate via SMS	•*		
	Send a shocker message from website	•		
	CaptureCam—take silent snapshot and send photo with device location in email	•	•	(break-in alert to local vault)
	Secure message via SMS to prepare for CaptureCam trigger	•*		
Wipe (Removal of Data)	Remote SIM tracking from website	•		
	Notify buddy on SIM change	•*		
	Remote wipe from website	•		
	Contacts, photos, videos, and memory card	•		
Remote Factory Reset	SMS and call logs	•*		
	Secure wipe via SMS	•*		
	Delete user data and all downloaded apps and reset device settings to factory default values	•		
Uninstall Protection	Secure factory reset via SMS	•*		
	Activate MMS as Device Administrator	•		
Battery Optimizer				
Extend Battery	Extend your battery life by stopping apps and switching off settings that drain power on your device	•		
Memory Cleanup	Free up memory (RAM) of the unwanted background apps, speed up your device and save power	•		

* Supported on Android devices that support SMS. Secure Commands via SMS, SMS threat removal and SMS filtering would not be available on Android OS 4.4+ devices where Hangout is preinstalled as messaging app.
